-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "32" has been used to designate both crank and pump. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action.

Claim Objections

Claim 10 objected to because of the following informalities: vehicle should be shown or cancelled. It is not clear how a vehicle impart a structural limitation on claim 1. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,7,8,10 are rejected under 35 U.S.C. 102(b) as being anticipated by Luo (US 5,267,535).

As to Claim 1, Luo discloses a two-stroke engine having a crankcase, a crank, a connecting rod 12, a piston 3 and a cylinder with a transfer tract 8, a transfer port 7 and an exhaust port 10, whereby the transfer port 7 and the exhaust port 10 are at least partially coincident, the transfer port 7 and the exhaust port 10 being further provided with a port valve 4, operable between a position to substantially close the transfer port 7 and open the exhaust port 10 during an exhaust phase of the engine, and a position to substantially open the transfer port 7 and close the exhaust port 10 during a transfer phase of the engine.

As to Claim 7, Luo discloses wherein the port valve comprises a rotary valve.

As to Claim 8, Luo discloses wherein the port valve 4 is resiliently biased whereby the port valve 4 is arranged to be opened by transfer gases from the engine, in use.

As to Claim 10, Luo discloses two-stroke engine capable of being use in vehicle.

Allowable Subject Matter

Claims 2-6,9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
